

# Thank you, Saskatoon!

## This is one for the record books...

Over 50 years ago, Gerry Clackson found his passion in the Saskatoon Real Estate Industry, leaving a lasting impression on each and every person he crossed paths with. His retirement is now official!

Here is his outstanding story:

Licensed in the early 1960's, his career started at McClocklin Real Estate Corp., in which he sold residential properties. The population of Saskatoon at the time was at approximately 100,000 people. Gerry's career expanded to selling commercial real estate in and around 1970. In the late 70's, both of his sons, Kim and Kevin entered the business under his guidance.

Clackson Real Estate was started in 1983 when interest rates were 22%. Those were challenging and yet very rewarding years for the Clackson family. Clackson Real Estate merged with ICR in the late 1990's.

Around 2000, Realty Executive Commercial was formed, where Gerry enjoyed the next decade plus of his career.

Gerry joined The Commercial Group in 2014 to finish his career, alongside his son Kevin and grandson Jeff. All four of Gerry's kids have been in the real estate industry, and three of his nine grand-children are presently involved in the commercial real estate industry.

With Gerry's retirement now official, his presence in the commercial real estate industry will be missed, and as he leaves such big shoes to fill, the rest of The Commercial Group is ready to put their best foot forward and take charge!

*"My dad still likes to get out and drive around, especially in the North End. He can still recall with amazing accuracy, a sale he did 25 years ago -- what the building sold for, who bought it and who the vendor was.*

*He moves slower now at 85 and it takes a little longer to tell his stories, but they are all worth paying attention to.*

*Having my dad as my teacher/mentor, I can honestly say I never would have become who I am today without his guidance."*
